## 1963

The multi-purpose Ball Chair is one of Eero Aarnio's most iconic products. When sitting inside the ball chair, you can immerse yourself in your own inner world or focus on your work in peace and quiet. Shutting out the surrounding world, the Ball offers a peaceful hideaway for the home, office or public space. The Ball chair is also available in an audio version with Bluetooth speakers mounted under the fabric upholstery. The colour combinations of the Ball chair are carefully chosen to complement the design.
